

ELECTRIFIED LUND CABINETS

**Available For 350 Capacity

ACCESS CONTROL KEY CABINET

The AC option incorporates your choice of 3 access control reader options. Upon authentication of valid credential (or fingerprint) a continuous duty, solenoid operated locking bolt is energized to unlock the cabinet door.

Adding and deleting users as well as retrieving detailed audits is accomplished via a data transfer device.

JUST ADD “-AC”

Stand Alone “-ACS”

Online “-ACQ”
