

Finger Alert 170-180° Professional

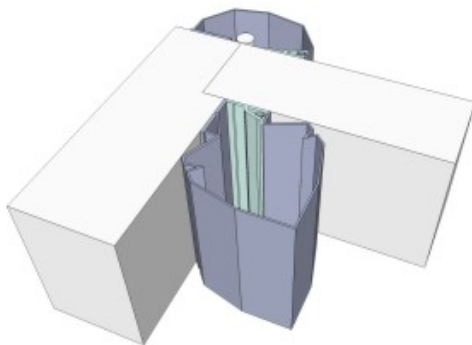

The Finger Alert 170-180° Professional has been specially designed for use in schools and public buildings. These professional door finger guards eliminate the risk of inattentive children having their fingers crushed between the hinge side of the door and jamb.

Finger Alert Professional meets the highest quality and safety standards in the world. They are able to absorb heavy impacts, and will provide years of professional finger protection. The Arte Viva Door Finger Guards are ideal for protecting the fingers of children, who can be inattentive and are at increased risk of finger injuries due to pinching or crushing between hinge side doors and jambs. The Finger Alert products are ideal for use in schools, daycare centers, sport clubs, hospitals, and homes.
